The International Conference Environmental Engineering – Through A Young Eye Innovations – Sustainability – Modernity –Openness (ISMO)

gathers the international community of scientists, engineers, managers and professionals in order to summarize the recent scientific achievements and highlight the present and upcoming problems in the area of environmental engineering and science. ISMO provides an excellent platform for the global participants to share and exchange novel research findings and experiences.

The primary goal of the Conference is to promote research and development activities in the field of environmental engineering. It aims to be a field for scientific information exchange between experienced researchers, engineers and young scientists who take their first steps towards innovations. Furthermore, ISMO helps the participants to establish new research and business contacts for future international collaborations.

The annually held ISMO Conference attaches importance to presenting and publishing novel and fundamental achievements in environmental engineering, protection and energy areas. Due to the unpredictable COVID-19 pandemic and for the health and safety of our participants the jubilee 10th edition of ISMO 2021 will take place entirely in the **online formula**.

The ISMO 2021 conference is a part of the 70th anniversary of the Faculty of Civil Engineering and Environmental Sciences of Białystok University of Technology.

Scope of the Conference

- ✓ sustainable urban development,
- ✓ sustainable urban systems,
- ✓ smart cities,
- ✓ air, water, soil and ecosystems protection,
- ✓ water and wastewater treatment,
- ✓ municipal and industrial waste utilization and recycling,
- ✓ environmental monitoring,
- ✓ problems of sustainable development,
- ✓ global and local climate changes,
- ✓ water supply and sewage disposal systems,
- ✓ issue of RES renewable energy sources,
- ✓ sustainable energy,
- ✓ high efficient heating systems,
- ✓ energy supply and network,
- ✓ low emission technologies,
- ✓ hybrid energy systems,
- ✓ energy storage technologies,
- ✓ energy-saving buildings,
- ✓ problems of modern heating networks and systems,
- ✓ energy and materials recovery technologies,
- ✓ ventilation and air-conditioning,
- ✓ low emission technologies,
- ✓ circular economy.

Call for abstracts

The ISMO Organizing Committee **kindly invites experienced researchers, academics, entrepreneurs, science enthusiasts and young scientists** to participate in the conference. Authors are requested to submit their Applications for participation and Proceedings via the electronic registration link according to the Conference schedule. The Proceedings must be prepared in English in the form of a MS Word file (Proceedings_LastName_FirstName.doc or .docx) according to the Proceedings template and send to wbiis.ismo@pb.edu.pl

<http://ismo.pb.edu.pl/registration-form/>

Deadlines

28.02.2021	Deadline abstract submission
10.03.2021	Notification of Acceptance/Rejection
01.04.2021	Final abstract (proceedings) submission deadline
10.04.2021	Conference fee payment deadline (confirmation of payment should be send by e-mail: wbiis.ismo@pb.edu.pl)
May 2021	X International Scientific Conference Innovations – Sustainability – Modernity - Opennes

Conference fee

The conference fee covers access to all sessions, Proceedings MDPI publication (open access) and an optional publication of the full papers in an electronic version monograph.

- ✓ **STUDENTS FEE (Bachelor and Master degree students) – 150 PLN (50 €)**
- ✓ **STANDARD FEE (Other participants) – 350 PLN (100€)**

All payments are to be made by bank transfer:

Publications

ISMO'21 offers a variety of publication formats, full and short papers. Submissions must follow the formatting instructions of their respective submission category.

All papers will be subjected to peer review to the Scientific Committee.

All accepted papers will be published as:

- ✓ 2-4-page abstracts (including DOI) in Proceedings an Open Access Journal by MDPI. Proceedings will be send to relevant indexing databases as WoS, Scopus, GoogleScholar and more.
- ✓ Chapter in the monograph (including DOI) series "Innovations – Sustainability – Modernity - Opennes" in English issued by the Publishing House of Bialystok University of Technology in the form of electronic books with an ISBN number.

Sustainability – MDPI (2.592) - additional payment with a discount 30%

Manuscripts publication is only possible by authors after oral/poster presentation during the conference.

The Scientific Committee will recommend publication in the mentioned journals or in the monograph of the series "Innovations- Sustainability - Modernity - Opennes" based on sent abstracts. Authors will be notified of recommendations for particular journals or conference materials within two weeks of completing the registration.

All abstracts and manuscripts will be blind reviewed, so please prepare your papers accordingly and remove author's names and affiliation before the submission.

Detailed guidelines on format of Proceedings and papers as well as their templates will be published on the conference website
